

January 6, 2022

Dear Family Members,

This is just a short letter to bring you up-to-date. The Little Sister on the unit where your loved one resides has surely notified you already by phone or email.

We tested all employees last Friday and the results are in. We want to notify you of multiple positive results among our employees. Those who tested positive are doing a time of isolation and will be tested again before resuming work. Since my last letter, another Resident has also tested positive and is doing a time of isolation.

As you know, we are discouraging visitation at this time. If you choose to visit, please bring your vaccination card. This is a new requirement from the Department of Health. They have also requested that you change your mask when you come into the Facility. You will be given a clean surgical mask at the Reception Area.

Please pray with us that this virus will go away – forever! Keep safe. God bless you all.

Sincerely,

*Sr. Joseph Caroline, l.s.p.*
